

# A Parent's Guide to Camp Transportation

#### **Transportation Overview**

Transportation of campers and staff is important and what we call the first "activity of the day"! Therefore, we believe that your child's camp day begins when he/she is picked up and concludes when he/she is delivered home safely.

We know that in an ideal situation, every child would be the last camper picked up in the morning and the first dropped off in the afternoon. Unfortunately this is an impossible task. Throughout the year, we plan each route to insure minimal driving time, safety, comfort, and efficiency for all passengers. Routes and times settle into a normal routine after a few days, although you may expect some changes due to varying camper schedules, weather, traffic or construction. Since we provide curbside-tocurbside service, the routes usually are planned so that the driver begins at the farthest home from camp and finishes at the closest home ... thus, your home, along with the trans counselor's home, may have a direct bearing on the length of your child's ride.

For everyone's safety, vehicles are not permitted to enter house driveways, so please have your child(ren) waiting at curbside. In some areas, centralized locations may even be used to lessen travel time.

Due to possible food allergies, we do not permit edibles on camp vehicles; therefore, all campers should be finished breakfast and ready when the vehicle arrives as drivers must maintain their schedule. For your peace of mind, drivers are not permitted to make extra stops at Wawa, Dairy Queen, Rita's Water Ice, fuel, etc.

Camp drivers are instructed to arrive at camp between 8:50 & 9:10 AM daily. In the afternoon, our camp vehicles leave the parking lot between 3:40 & 3:50 PM.
